# Tech-Tips

Accessing Your Website

Accessing your website has just become easier! Previously, you had to click the red arrow followed by the external folder and finally your website.

Now, you can simply choose your website from a drop-down list.

Step	Action	Result
1	Log into Cascade as usual.	
2	Select your site from the drop-down list.	
3	If you don't see your web structure, then click the red arrow to open the asset tree.	
4	Your website structure will appear on the left side.
